

# シャドウマジック SHADOW Magic

ANIMATION PILOT

[www.kage-productions.com](http://www.kage-productions.com)

## WHAT IS IT?

Shadow Magic is a 2D animated pilot episode. It marks the beginning of a full 13 - episode series. The story takes advantage of trans-media immersion that includes games, comics, social media, and the animation series.

This all-inclusive show features a diverse cast of characters, action, drama, science fiction and fantasy adventure for ages 13+. While fantasy and science fiction based, Shadow Magic portrays real life struggles. Acceptance, kindness, tolerance, and forgiveness are all strong themes in the story.

## STORY

Avery finds a strange object at her doorstep and suddenly becomes a player in a real life RPG. If she fails to fulfill the contract with ancient Atlantis, she won't only lose her life, but her soul as well.

Avery chooses real life over online games in an attempt to become her fantasy by mastering swords and magic. She realizes all too soon, it's easier said than done. With her friends lives in jeopardy, Avery has no choice but to risk her own skin and learn how to use her new body in trial by fire. She receives some unexpected help from her school's resident playboy, but she doesn't trust him to keep her new abilities or dragon partner a secret.

Shadow Magic takes place in a near-future Earth where technology is king. Much of it is thanks to one corporation, Makino Industries headquartered in the un-named city which is a confluence of Hong Kong, Tokyo and Vancouver. Little do our cast know, the scope of cause and effect lie far beyond only their own planet.

## WHO ARE WE?

KAGE Productions is made up of an experienced team of animators each having 10+ years of experience in the professional animation, games and comics industries.

We know full well the risks and challenges of a full scale production on both feature films and long-running television series. We're looking for the bare minimum funding to produce a broadcast-quality product that everyone can enjoy.
